

EcoLocation

HPC In The City: Dallas 2022

EcoLocation Promotional Video

What is EcoLocation?

With the support of organizations like EcoRise, Dallas and the greater state of Texas have been able to garner funding and provide education for the development of jobs that further assist in the overarching goal of creating a clean, sustainable environment for all who live there.

Our beliefs align with those of EcoRise:

education is the bedrock of social and environmental change.

teachers are the key to unlocking student innovation.

youth have the power to design a sustainable world.

partners magnify and accelerate community impact.

What is our aim?

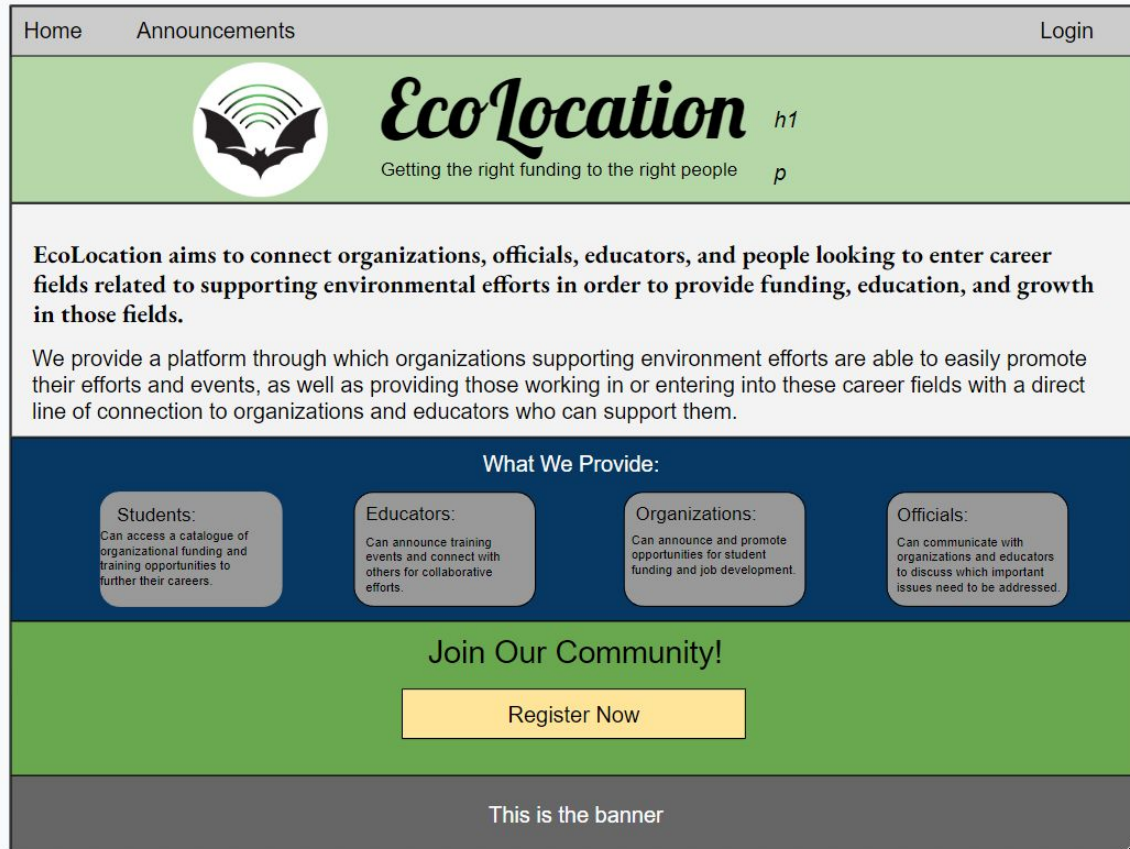

Goal: Create a website that directly connects organizations with the workforce they're looking to fund.

Accomplishments:

- Developed UI/UX Wireframes
- Created a website currently being hosted on a Linux VM in Google Cloud, using the Apache web server packaged with XAMPP
- Developed a backend to store data
- Structured a MySQL and PHP connection to communicate with the backend in the future
